

ST. LOUIS SKATING CLUB

June 5, 2009

Dear Skater,

Welcome to another exciting year of figure skating with the St. Louis Skating Club! We are excited about the upcoming year, and are looking forward to seeing each skater working hard throughout the year in order to reach his or her full potential.

Enclosed you will find the Membership Application for the 2009-2010 skating year and Emergency Medical Release Form. You will only need to fill out the emergency medical release form, if you or your child will be participating in club activities such as ice or testing.

Please complete all necessary paperwork, and return with payment to:

Beth Gartin
7053 Northmoor Drive
St. Louis, MO 63105

The 2009-2010 skating season is effective from July 1, 2009-June 30, 2010. Therefore, please note: ALL completed paperwork and payment MUST be received before a skater will be permitted to test at any test session, purchase club ice time, or register for a competition representing the club. If you are testing, or competing shortly after registering, please include a note with your registration form so I will know you must be registered by a certain date and will do my best to accommodate your request.

Club ice will begin again with August ice on August 8, 2009. Dates and times for our August ice are posted on our website. Regular Club ice will begin on Tuesday, September 1, 2009.

We are in the process of establishing a scholarship fund to help skaters in need of financial assistance. The scholarship fund will initially be funded by using part of the money the Club received from its participation in the 2006 National Championships. Please note our membership form this year allows for you to make a voluntary tax-deductible contribution to the scholarship fund. Contributions of any amount are very much appreciated.

If you have any questions regarding membership, please contact me at gartin@aol.com or (314) 725-6237.

Thank you for joining the St. Louis Skating Club and best wishes for a successful season!

Sincerely,

Beth Gartin
